b7D

HARRIS was described as an angry, bitter person. Like a lot of the other TCM members, he had been constantly picked on, taunted, and had food thrown at him by some of the other students at CHS. DYLAN, a follower of HARRIS, was a lot more easy going and friendly.

The last time [redacted] had any contact with HARRIS or DYLAN was circa January 1999, when he said hi to them outside of the school.

EXECUTIVE SUMMARY

ASSOCIATES TEAM

On April 20, 1999, eyewitnesses to the shooting at Columbine High School (CHS) tentatively identified Eric Harris and Dylan Klebold, as the two shooters. There were also unconfirmed reports that there were a third, and possibly more, shooters involved. The identities of Eric Harris and Dylan Klebold were later confirmed after being found in the Columbine High School library. Both had died of apparent self-inflicted gunshot wounds.

The Columbine Task Force was created to investigate the shootings and several teams were formed. One such team was the Associates Team. This team had the responsibility of identifying any members, past or present, of the Trench Coat Mafia, and all associates of the TCM. In addition, the Associates Team identified any friends or co-workers of Eric Harris and Dylan Klebold in order to obtain background information on the activities of Harris and Klebold.

Early intelligence information gathered at the crime scene from witness referred to Harris and Klebold's involvement, or membership in, a group at Columbine High School commonly known as the "Trench Coat Mafia" (TCM). A number of CHS students and faculty were interviewed as the events within the school unfolded on April 20th, and many claimed to be familiar with the TCM and it's members. Based upon those early interviews, the following twenty-one (21) individuals were initially identified as TCM members:

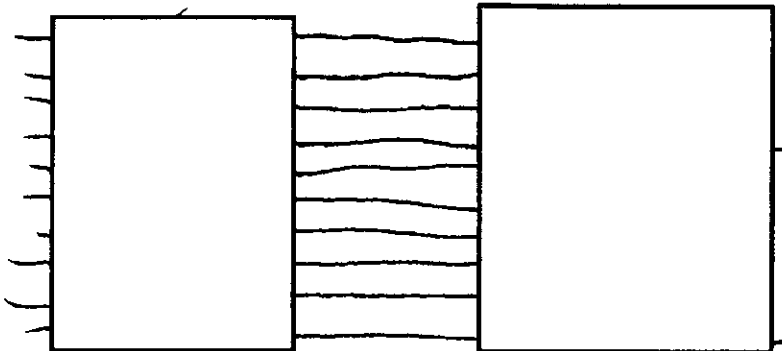

Additional information developed from interviews resulted in the following list of associates of the Harris and Klebold and the Trench Coat Mafia. These individuals primarily consisted of friends within Columbine High School, some of who were initially associated with the group only because they were the friend or girlfriend of an alleged TCM member. Other individuals were identified as associates because they worked at Blackjack Pizza with Harris and Klebold, or socialized with them outside of Columbine High School. Identified below are the twenty (20) associates:

Columbine Task Force
FBI # 174A-DN-57419 / JCSD # 99-7625

Based upon developing information as to the Trench Coat Mafia members and associates, an initial link chart diagram was created by JCSD Crime Analyst [redacted] (Chart 7625A). Photographs within the CHS 1998 Yearbook were also obtained, identifying those in a group photo as TCM members. Additionally, the 1999 senior class photo (taken in March 1999) reflected several of the same members/associates posing as if pointing weapons at the camera.

On the afternoon of April 20, 1999, three male subjects were contacted by Jefferson County Sheriff's Deputies near the school in Clement Park and detained for questioning. This was primarily based upon their dress in all black clothing, which matched the known description of the shooters, and their proximity to the crime scene, which was still not secured. These individuals were identified as [redacted]

[redacted] They were subsequently released that afternoon, and were re-interviewed at length on April 24th. They were not Columbine students. They identified themselves as the "Splatter Punks", and said that they had responded to Columbine High School mainly out of curiosity regarding the events there. They have no known affiliation with the TCM, and were shortly thereafter cleared of any involvement.

Although the investigation identified Eric Harris and Dylan Klebold as being "members" of the TCM, it appears that the "Trench Coat Mafia" is a loose, social affiliation of primarily current CHS students, with no formal organizational structure, leadership or purpose, such as that typically found in traditional juvenile street gangs. The origination of the title "Trench Coat Mafia" is not clear either. It appears that some of the early group members had begun wearing black trench coats or dusters to school. That, combined with members being viewed within the school as "outcasts", either created the name themselves, or it was given to them by someone outside the group. A common characteristic used by CHS students to initially identify TCM members was the wearing of black trench coats. Many of the members also actively participated in playing video games such as "Doom", and were also active together in the production of videos for school projects. Many of those interviewed related that they (individually, and as a group), were harassed by student athletes ("jocks").

Columbine Task Force
FBI # 174A-DN-57419 / JCSD # 99-7625

While the above lists of TCM members and associates appears lengthy, many of those identified did not closely associate with each other, and some were only mutual friends. A few had only a passing acquaintance with Harris or Klebold. The TCM appears to have had cliques or small subgroups, not much different than most other social groups in a high school setting. Eric Harris and Dylan Klebold had a few close associates, but overall were not described as having any particular influence or leadership roles within the Trench Coat Mafia. Their friends and associates described them as often wearing the same black dusters which they wore during the shootings on April 20, 1999, and all deny any indications from either that they had planned this incident. Some individuals, such as [REDACTED] knew of their interest in building pipe bombs. Robyn Anderson purchased the three long weapons used in the killings on their behalf at a local gun show, but also denies any prior knowledge of their plans. Mark Manes and Phillip Duran were involved in Klebold's purchase of the TEC-9 handgun, however both deny any knowledge of Harris and Klebold's plans.

The Associates Investigation Team was assigned to interview and investigate any TCM members and/or associates, with the goal of identifying other suspects who may have in any way participated or conspired with Harris and Klebold in the preparation or commission of this or any related crime. The Team was also assigned to identify anyone who had any prior knowledge that Harris and Klebold were planning the shootings. Where appropriate, the interview subject may have had property searched and seized pursuant to either a court-ordered search warrant or consensual search. Some subjects were requested to submit to polygraph examinations regarding prior knowledge or assistance in the commission of the crime. Detective [REDACTED] Arvada Police Dept., or Agent [REDACTED] BATF/Denver administered the polygraphs. After conducting numerous interviews, the Associates Team created a revised Associates link-chart (see Chart 7625B), which is representative of each identified person's relationship to Harris and/or Klebold. Any individual identified initially on Chart 7625A, who later appears to have had only a peripheral or minimal relationship with the shooters, has been eliminated from the revised chart.

The Associates Team identified twenty-two individuals, noted in bold type, who provided pertinent information regarding the origin and membership of the Trench Coat Mafia and their associates. These individuals also provided specific information about Eric Harris and Dylan Klebold and how they related to the other members of their social circle. Although most of these individuals were cooperative, even after some retained attorneys, others refused additional interviews to clarify inconsistencies in their statements.

As this investigation reaches conclusion, no evidence has been found to support that anyone, other than Eric Harris and Dylan Klebold, participated in the shootings at Columbine High School. Additionally, there is no evidence that anyone, other than Harris and Klebold, assisted in the planning or had any prior knowledge of that plan.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/01/99

On this date the Federal Bureau of Investigation (FBI) Denver Division's Evidence Response Team (ERT) continued with processing evidence found at Columbine High School, 6201 South Pierce Street, Littleton, Colorado (CO). ERT was assigned to process the cafeteria.

At approximately 8:15 A.M., the school was still secured by Jefferson County Sheriff's Office (JCSO). During a walk through of the cafeteria with SSA [redacted] we noticed the following:

Approximately 10-15 feet away from a burned orange duffle bag which exposed a 25 gallon tank of propane, a gallon can of Coleman's camp fuel, alarm clock and other debris, we observed a blue duffle bag, round in shape (20" in diameter) and approximately 3 feet long, sitting on the floor. The blue duffle bag appeared to be packed tight with unknown items. We touched the top center of the bag and felt something hard, believing another tank of propane to be in the bag.

Sgt. [redacted] JCSO and [redacted] were close by along with SA [redacted] FBI Bomb Technician. All were summoned to the newly discovered bag. [redacted] sliced open one end of the bag and we observed the end of a pipe bomb and a alarm clock which appeared to be the same as the one at the orange bag.

Bomb Squad members closed off the cafeteria immediately and maintained the scene from 9:30 A.M. until 10:30 A.M. Writer photographed the bag prior in original condition and after work by bomb technicians.

At approximately 10:30 A.M. a briefing was held with ERT and other crime scene personnel assigned to assist. The scene was divided into three (3) areas, described as follows:

Area 1 - Main cafeteria and kitchen area to the base of stairwell to south west corner

Area 2 - Stair way, landing to edge of carpet in hallway, and to south door

Investigation on 04/22-23/1999 at Littleton, Colorado

 SA [redacted] CBI - Significant Bomb Evidence

b7C

The evidence logs were completed by Detective [redacted] and
 [redacted] JCSO.

Standard crime scene processing started at
 approximately 10:45 A.M. and ended that day at approximately 4:30
 P.M.

On April 23, 1999, at approximately 8:30 A.M. the team
 assembled once again and continued with processing. JCSO still
 maintained the crime scene and started a new crime scene entry
 log. SA [redacted] FBI joined the team on this date. SA
 [redacted] and [redacted] did not return on this date.

All evidence was collected at the scene and turned
 directly over to JCSO personnel. FBI retained film and video that
 ERT took and had it processed. All original 8mm video tapes and
 35mm film was later turned over to JCSO after being copied. The

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/01/99

On this date the Federal Bureau of Investigation (FBI) Denver Division's Evidence Response Team (ERT) was called upon to assist in the homicide scene at Columbine High School 6201 South Pierce Street, Littleton, Colorado (CO). The crime scene was in the control of the Jefferson County Sheriff's Office (JCSO). Lead crime scene investigator for JCSO [redacted] assigned ERT to process the south west side of the school which had two (2) deceased parties as well as evidence of gunfire and explosive devices.

At approximately 9:00 A.M. crime scene team leaders met with JCSO and received a briefing. Total dead at the scene was fourteen (14) students and one (1) teacher. Twelve (12) bodies were in the library which included two (2) dead suspects. One (1) body, believed to be that of the teacher was in a science room. Two (2) more bodies were outside the west door. Numerous exploded pipe bombs and other devices were located throughout the school. In addition to the suspects shooting, JCSO reported that numerous responding officers and SWAT personnel had fired their weapons during the rescue of students.

At approximately 9:25 A.M. [redacted] then provided a walk through of the crime scene to team leaders. Writer observed obvious signs of discharge of firearms upon entering the east (main) door of the school. Shell casings, live ammunition, bullet holes and broken glass was immediately observed and continued that way throughout most of the walk through. While proceeding through the school we observed numerous discharged pipe bombs. b7C

Writer proceeded to the library with other team leaders and observed twelve (12) deceased persons with obvious signs of severe trauma. Most of the dead were under tables in the library. Two (2) males, identified as Eric David Harris, white male, DOB 04/09/1981, SSN# 284-82-1478; and Dylan Bennet Klebold, white male, DOB 09/11/1981, were observed lying next to each other near the south east corner of the library. Both appeared to have suffered head wounds. Numerous firearms to include a 9mm pistol, a 9mm carbine type rifle, a sawed-off shotgun and, as well as ammunition was observed near the two (2) bodies. Harris had on a white shirt, and Klebold was dressed in black.

Investigation on 04/21/1999 at Littleton, ColoradoFile # 174A-DN-57419-596

Continuation of FD-302 of Investigation Report , On 04/21/1999 , Page 2

Next we preceded to the cafeteria and observed hundreds on back packs and a lunch room that appeared to have been evacuated in the middle of lunch. Discharged pipe bombs and shell casings were also observed.

[redacted] then showed team leaders the location of two (2) additional bodies which were outdoors on the west side of the school. Both bodies had been covered and had been designated by JCISO as #14 and #15. Denver ERT was assigned to process this area and recover the bodies.

A briefing was held for ERT personnel and Colorado Bureau of Investigation (CBI) Special Agent (SA) [redacted] who was assigned to the team. The following personnel were involved in processing this scene:

SA [redacted]	- FBI - Team Leader	
SA [redacted]	- FBI - Video/Evidence - Body #15	
SA [redacted]	- FBI - Evidence	
SA [redacted]	- FBI - Photo log/Evidence	
SA [redacted]	- FBI - Sketch	
SA [redacted]	- FBI - Evidence - Body #14	B/C
SA [redacted]	- FBI - Evidence	
[redacted]	- Photo Log	
[redacted]	- FBI - Sketch/Video	
[redacted]	- FBI - Photo	
[redacted]	- FBI - Photo	
[redacted]	- FBI - Sketch	
SA [redacted]	- CBI - Evidence	

At 10:30 A.M a crime scene log for entry of this area from outside was utilized to start the processing. Colorado State Patrol (CSP) officers were manning perimeter areas of the school and barrier tape which extended from the north west corner of the fenced cooling units to the west fence. The south side of the scene was contained by the parking lot fence that ran west from the school. The east side of the scene was the school and the west side of the scene was contained by CSP officers at the soccer fields.

To further describe this area, it was divided in five (5) areas as follows:

854

4-DN-57405

Continuation of FD-302 of Investigation Report . On 04/21/1999 . Page 3

Area 1 - The immediate area which included Body #15 which was a white male, lying on the sidewalk on his right side with his head facing south; bordered on the west by the stairs, south by the parking lot fence, east by the school and north by the fence at the top of the stairs.

Area 2 - Described as the west entrance and walkway to the school; bordered on the east by the school, south by the school/fence, sidewalk on the west and fenced area as the north border.

Area 3 - The immediate area around Body #14 which was a white female, lying on the grass on her back, head to the east; bordered on the east by the fence compound, north by the crime scene tape, and bordered west and south by the sidewalk.

Area 4 - Described as the grassy area the extends west of Area 1; bordered on the east by the stairway, south by the parking lot fence, north by the sidewalk and west by the end of the parking lot fence.

Area 5 - The fenced area around the garbage bins, cooling units and paved area adjacent to the west entrance to the school.

Rough sketches were completed for each of these areas and assigned as following:

Area 1 and 2 - [redacted]
Area 3 - [redacted]
Area 4 - [redacted]
Area 5 - [redacted]

b7C

Preliminary photographs and video was completed by [redacted]

Coroner's Office and [redacted] Jefferson County Coroner's Office, were allowed on the scene to recover Body #15. Upon examination of the body, a Columbine School Identification Card the name of Daniel Rohrbough, 9th grade, was found in a pocket.

855

4-DN-57405

Continuation of FD-302 of Investigation Report . On 04/21/1999 , Page 4

The victim had what appeared to be three (3) total gun shot wounds to the chest area and arm. Body #15 was removed at approximately 11:50 A.M.

Upon closer examination of Body #14, a Colorado Driver's license in the name of Rachel Scott, DOB 08/05/1981, was found in her pocket. The victim appeared to have suffered gun shot wounds to the head, left arm, right breast and thigh of left leg. She still had a back pack attached to her body. Body #14 was removed from the scene at approximately 12:15 P.M.

Evidence collection was coordinated through the JCSO by design and the following JCSO Deputies worked with ERT:

LVC

Standard evidence collection techniques began at approximately 1:00 P.M. Evidence was not specifically marked, only the packaging. See attached evidence logs for specifics and further information.

A brief summary of the evidence is the following:

Bullet fragments 1

Some other items of evidence which were not found in these five (5) areas was collected by ERT personnel and turned over to JCSO. See log for further details. Also, ERT video recorded the license plates of all vehicles found in the west, east and north parking lots of the school on this same date.

b7C

All back packs and obvious personal property of students was also collected as "found property" and transported to the east entrance of the school for storage.

The processing of the crime scene was completed at approximately 5:30 P.M. All film and video tapes was processed and copied by the FBI. Original 8mm video tapes and 35mm negatives were later turned over to JCSO. Denver FBI has not retained any evidence from this operation other than a copy of the video tapes and the photographs. Notes and rough sketches will be maintained by Denver FBI.

Title: COLUMBINE HIGH SCHOOL

Synopsis: Document file reference release of FBI reports, notes and diagrams.

Details: On 08/10/2001 writer turned over to Lt [REDACTED] Jefferson County Sheriff's Office (JCSO), a complete copy of all documents related to Denver Evidence Response Team's (ERT) activity to Columbine High School. This was in response to numerous media references to a "FBI Ballistic report", which does not exist as it is outside the expertise of Denver ERT. Writer put together a comprehensive notebook complete with dividers to organize copies of all paperwork writer had in his possession in regards to captioned case. In addition, an extra set of cafeteria photographs was discovered within ERT retained photographs and provided on this date.

Writer had previously provided many of the documents during on going normal transfer of reports during a pending investigation. Writer believes that the photographs are in fact duplicates of those already provided. Writer chose to give this extra set (35) to JCSO out of caution in case they were overlooked in the approximate 700 photographs taken by ERT and already provided to JCSO.

Golden, Colorado 80401-2697

Dear Division Chief Kiebusch:

During the weeks and months following the Columbine High School incident, Federal Bureau of Investigation (FBI), Denver Division Evidence Response Team (ERT) reports of investigation were turned over to the Columbine Investigative Task Force as they were completed, per our standard practice.

In an effort to assist the Jefferson County Sheriff's Office (JCSO) in addressing potential questions regarding any aspect of the crime scenes processed by the FBI ERT, we recently furnished your office copies of Denver FBI ERT materials prepared contemporaneously, on scene, which were used to prepare the reports referenced above. Certain of these documents may duplicate materials previously provided; however, these documents also include copies of notes, sketches, and other hand written materials generated during crime scene processing. Please note that the dissemination of these additional materials is beyond the normal protocol for FBI reporting, and it was made to assist in the resolution of any remaining issues.

More Documents from Columbine Investigation to Be Released

The Jefferson County Sheriff's Office has received a notebook of documents from the FBI related to the Columbine investigation, and the Sheriff's Office has begun redacting the documents and preparing them for public release.

Attached to this press release is a copy of the letter from the FBI which explains the nature and purpose of the dissemination of these materials to the Jefferson County Sheriff's Office.

Knowing the high level of public interest in the Columbine investigation, the Sheriff's Office has decided to release the documents as they were received from the FBI. The documents consist of reports from the evidence response teams which processed the outdoor and cafeteria scenes. The documents include handwritten sketches, notes and miscellaneous reports.

The Sheriff's Office is redacting the documents according to the guidelines provided earlier by District Court Judge R. Brooke Jackson. As soon as that process is complete, the Sheriff's Office will release information regarding how these materials can be obtained.

Columbine gun sentence upheld

The state Court of Appeals on Thursday upheld the 4½-year prison term given to a man who helped the Columbine gunmen buy a weapon used in the shooting.

Philip Joseph Duran, 23, pleaded guilty last year to providing a TEC-DC9 semiautomatic handgun to a juvenile and illegally possessing a sawed-off shotgun during target practice with Dylan Klebold and Eric Harris.

Officials had recommended probation, but Jefferson County District Court Judge Thomas Woodford sent Duran to prison.

Parent: Shooting details hidden

Columbine release by FBI criticized

By Kieran Nicholson
Denver Post Staff Writer

Even after the release of 250 more pages of Columbine investigative documents, Brian Rohrbough still thinks critical details of the school shooting are being withheld by authorities.

Rohrbough, whose son Daniel was killed at Columbine, said conclusions based on detailed ballistic reports of shootings outside the school are still missing, despite the release of some 15,000 documents.

The most recent 250 pages, from the FBI, was released Thursday by the Jefferson County Sheriff's Office. They include sketches, notes and miscellaneous reports.

"Missing are detailed trajectory maps," Rohrbough said. "I believe those reports were done and they existed. If not, the FBI has to answer why."

Rohrbough said authorities already have released detailed trajectory maps from inside the library, showing where 12 students were shot and where the two killers committed suicide.

Materials from the library include detailed ballistic reports, labeling the shooters and their victims with detailed information about the range of fire, entry and exit wounds, and where the bullets were found.

Rohrbough said he believes the same type of detailed report was made for the area outside the school, where Daniel and schoolmate Rachel Scott were killed.

"There is absolutely no reason to see why the (outside) reports were not done the same way" as the library report, Rohrbough said Thursday.

Parent: Facts on Columbine being hidden

COLUMBINE from Page 1B

Rohrbough is suing the Sheriff's Office, claiming Daniel was killed by police fire.

Special Agent Ann Atanasio, an FBI spokeswoman, said the FBI team that handled the investigation outside the school didn't draw conclusions and wasn't supposed to make any.

"Our evidence-response team does not draw conclusions. It collects evidence and turns it over" to lead investigators, said Atanasio.

"The kind of info he (Rohrbough) is looking for has to come from a field expert. Ballistic trajectory would have to come from someone trained in that," she said. "We were assisting Jefferson County. It was their case, and we were assisting."

The materials released Thursday contained no new information, said Atanasio.

Everything released Thursday was included in prior documents, she said, and the Denver FBI office now has released "all the relevant documents."

Jacki Tallman, a sheriff's spokeswoman, said her office is not withholding materials that the court has ordered released.

"The materials are out there," said Tallman.

"We are not withholding ballistic reports. Had we received that from the FBI, it would have been in there."

Victim's father believes Jeffco's latest batch of documents incomplete

By Kevin Vaughan
and Charley Able

News Staff Writers

GOLDEN — Jefferson County authorities released another batch

of Columbine documents Thursday, but the father of a boy who died at the school believes still more paperwork exists.

The disagreement is the latest in a long-running battle between Jefferson County officials and the family of Daniel Rohrbough, who was killed outside Columbine in the opening moments of the April 20, 1999, attack on the school.

Among the 242 pages made available Thursday were notes, sketches, evidence logs and reports filed by FBI agents who investigated the area outside the school.

The reports were just recently turned over to Jefferson County by FBI officials.

"Most of this is nothing new," said Jefferson County sheriff's

spokeswoman Jacki Tallman. "It's reflected in other forms in other parts of the documents that have been released."

But Brian Rohrbough, Daniel's father, said he believes other reports from "team six," which collected evidence in the area outside the school, must exist.
